Out Source Your Spring Cleaning!

No matter what time of year it is, you need us to clean your window treatments, rugs and upholstery items. They are a huge investment in your home's comfort and style. Regular cleaning and deodorizing protects and extends the life of your investment. With the average cleaner, you can expect to haul your rugs and upholstery pieces to them. You have to take down your window coverings, leaving your home unsafe and exposed while they are cleaned.

With our compact equipment, the revitalizing action is brought right to your door. All of your soft surfaces are cleaned. Curtains, blinds and sheers can be treated right where they hang. Rugs regain softness and upholstery pieces sit up and take notice after our revitalizing treatments. Occasionally, for best results, some items may require a visit to our state-of-the-art facility for special care.

You will immediately see the difference as our specially trained **Hunter Douglas Certified Technicians** gently clean and deodorize your decor, completed in a fraction of the time. The guaranteed techniques will not shrink or damage your unique items. Spring into action with Clean Décor at your Door. Call today for a free estimate.
